

Video conferencing, e-learning, online chats and so much more. There have never been so many alternatives to classic seminars and conferences.

And yet there is one thing that cannot be achieved online: Being together at a special place, face-to-face interaction that can guarantee a lively exchange. Products are transient, comparable and interchangeable. We want something unique and unforgettable for you and your clients. Not only because of the fantastic landscape, but also because of our experience and our strong commitment to service, coupled with friendliness and humor.

Together with you we want to be successful!

The wishes and ideas of our organizers, the speakers and each individual conference participant have first priority. We welcome every guest as the most important person at our house and their wish is our mission to excellence.

Welcome at the Riessersee Hotel Garmisch-Partenkirchen.
